	————	\$1,344 15

The above report of the amount received and expended by us during the year leaves a balance in the town treasury of \$255 85. From the amount raised by the Precinct \$200 was for finishing the hall at the engine house, which has been let for \$175, leaving a balance from amount raised of \$25, which with material on hand sold to contractor will nearly furnish the hall with seats, stove, etc.

ARTHUR HUTCHINSON, }
J. R. CONNOR, } Firewards.

I have examined the accounts of the firewards of Bristol Fire Precinct for the year ending Feb. 25 and find them correctly cast and properly vouched.

J. W. SAVAGE, Auditor.

Report of the Board of Education.

UNION SCHOOL DISTRICT NO. 2.

From a scene as serene as the March eve in which it was held the school meeting sent forth its old Board of Education unbroken and qualified by law for another year of service.

The Board organized immediately without creating any practical change: Capt. R. W. Musgrove, chairman; Mrs. L. A. Berry, sec.; John H. Brown, Esq., treas.; C. W. Fling, Esq., supt. of school property; Dr. Channing Bishop, C. W. Fling, Esq., R. W. Musgrove, committee on bills.

The first work of the Board was the regrading and division of the Primary department. This step resulted in the organization of two Primary grades, A and B, A being the highest. Henceforth a fifth teacher must be employed. Mrs. L. C. Butrick received the election to the new position, viz., teacher of Primary B.

At the beginning of the summer term the little building adjacent to the school grounds on No. Main street was rented and all the former Primary dept. save the two highest classes were convened therein, forty-two in number, and given into Mrs. Butrick's care.

The forty-two little people were seated side by side upon settees as close as people would be willing to sit in an audience, with boxes for books under their seats; a new school, in a new style, in a new place, with a new teacher! Could she succeed? That depended on whether she could

so benefit the pupils and satisfy their parents as to take and hold the citadel of public opinion. Under such circumstances Mrs. Butrick did her first work as a teacher, won a victory and became a success.

The four teachers of the other grades having been elected for a year, had still another term—High school, Arthur W. Smith, a teacher seldom surpassed; Grammar department, Emogene Roby, earnest, tireless, faithful; Intermediate department, Miss Lizzie B. Bishop, systematic and unyielding, but kind; Primary A, Miss M. A. Morrill, ingenious, considerate and patient. What better qualities could our teachers possess? What more the board or people ask?

At the close of the school year Prof. Smith left us for the departments of Greek and German at College Hill, O., and Prof. Arthur T. Seymour of Turin, N. Y., a graduate of Cornell University, was elected to the High school. Prof. Seymour has been with us two terms and we can find no fault with his physical, intellectual or moral statue, nor with his success as a teacher.

In response to an article in the warrant the district voted an appropriation for the erecting of a new school room. C. N. Merrill, Chas. P. George and R. S. Hastings were chosen committee on plan and estimate; Clarence Merrill, C. P. George, O. B. French, building committee.

Through the prompt and efficient service of these two committees the room was completed in time for the fall term. As the Intermediate grade had poorest accommodations in the main building, the Board decided to seat the new room for this grade.

The new room has lifted the burden, borne so long, from the hands of the School Board. Looking back from the present we ask, How did we so long without it? Some of us know too well.

One more advance step should be taken now. Our school

year is too short for our work. Our course of study measures up with the best of our kind of schools, while our pupils have six weeks less time than the shortest of which we know. Our thirty weeks should all be devoted to advance work, and two weeks should be added to each term for reviews, in common justice both to teacher and pupil.

The introduction of mental arithmetic is already being felt along the whole line of mathematics, but thirty weeks is not time enough for the book.

The same may be said of every science in the course. Our class in Greek and in French is keeping pace with our Latin. And now as if face to face we would like to talk with parents and guardians as to our Roll of Honor.

As it now is a pupil may hurry off to school, take his seat, respond to his name, get excused and spend the day in the store, street or elsewhere and yet hold his place on the Roll of Honor. Another pupil may be five seconds late, be in school all day, study hard and recite well, and yet lose the Roll of Honor. We submit the question, Is this just? We think not. The Roll of Honor in our opinion should be comprehensive enough to cover, 1st, response to roll call, 2nd, something of solid work and recitation in each session and 3rd, an average, for the term, of 98 in deportment. Such a Roll of Honor would not be a farce, and to win the prize would make a hero of the winner.

For the Board,

MYRA S. JUDKINS, Supt.

REPORT OF SCHOOL BOARD.

The School Board have been especially fortunate the past year in securing capable, efficient teachers, who labored conscientiously for the good of the schools under their charge. The faithful efforts of the teachers were met with commendable work by the scholars, supported in the main by the co-operation of the parents, and the result has been what may always be expected under such circumstances—first-class schools. When we consider the fact that our schools have had only from fifteen to twenty-three weeks of school during the year, the result has been far better than could reasonably be expected.

The increased length of our schools the past year is another element that has contributed largely to the good work and satisfactory results of the year, and it is to be hoped that the same liberal policy will prevail the coming year in regard to raising extra money for our schools.

E. SANBORN, }
A. J. FERRIN, } School Board.

Report of the Trustees of the Minot-Sleeper Library.

No change has taken place in the board of management of the library during the year. At its annual meeting held Feb. 7, the officers of the board and the librarian were re-elected as follows: Chairman, R. W. Musgrove; secretary, Channing Bishop; treasury, Geo. H. Calley; executive committee, I. A. Chase, G. H. Calley, B. F. Perkins; librarian, Miss Emma P. Berry.

The large number of books taken from the shelves by the citizens of Bristol, and the fact that during the eight years the library has been open to the public not a single volume has been lost, are some indications, not only of the faithfulness of the librarians, but of the high value placed upon its privileges by the people of Bristol.

Whole number of books in circulation February,	
1892,	1,893

Respectfully submitted for the trustees,

R. W. MUSGROVE, *Chairman.*

CHANNING BISHOP, *Secretary*

Report of Board of Health.

In submitting our report for the year we feel that we can congratulate the town in the marked improvements included under our report.

Since the last town meeting our selectmen have laid 2,500 feet more or less of drainage pipe in our streets and through the fields and swamps of Mr. Frederick Bartlett and Mr. O. G. Cass, thereby rendering fertile land that was entirely useless, yes, more than that, land that threatened the lives of our community as it sent forth agents of destruction, the baccilli. And while we rejoice in the advancement already made we do not feel we can let the subject rest until a step or two more has been taken.

There is still overshadowing us "germ resource" in the meadow situated between Lake street and Newfound river; the land back of Mr. John Seavey's residence and the mouth of the draining pipe extending down Union street.

In doing a little each year we are adding to the health of our citizens and the future prosperity of our village. No money is more profitably expended than that to insure our citizens against the epidemics that threaten our country at the present time, and right here let us call the attention of every reader to the condition of their own vaults and drains. We are all aware of the dangers of cholera that visited our shores the past summer and which threaten us as much the coming season, and there is on

stronger preventative than *cleanliness*. Let the inhabitants look to their own homes and see that everything is done that can be done for by so doing you benefit yourselves and aid the officials greatly in their work. We believe that more work will be done in this line than ever before, although not necessarily drawing heavily on the town treasury.

Respectfully submitted,

CHANNING BISHOP,	}	Board of
CLARENCE A. SMITH,		Health
